

Vaccines Covered for Saskatchewan Residents 65 Years and Older

Vaccines	National Recommendations	Coverage Details ¹
COVID-19	At least 1 dose of either Comirnaty or Spikevax COVID-19 vaccines per year	Comirnaty and Spikevax are available for free for older adults
Influenza	1 dose of either Fludac or Fluzone High-Dose per year	Fludac and Fluzone High-Dose are available for free for older adults
Pneumococcal (Pneumonia)	1 dose of either Prevnar 20 or Capvaxine ²	Capvaxine is available for free for older adults, based on one's previous vaccination history and risk factors
RSV	1 dose of either Abrysvo, Arexvy or mRESVIA can be used based on personal factors	These vaccines are not available for free for older adults
Shingles	2 doses of Shingrix	Shingrix is available for free for certain older adults who are transplant candidates, recipients, on specific immunotherapies and certain Veterans ³ and Indigenous ⁴ older adults
Tetanus and Diphtheria	Immunization history will determine the type of vaccine and the number of doses needed	Vaccines are available for free, including for older adults every 10 years

¹ If you have a private drug plan, it may cover the cost of vaccines that are not publicly covered.

² Recommendations vary for older adults who have received a hematopoietic stem cell transplantation.

³ Eligible Veterans may be covered for this vaccine through Veterans Affairs Canada if they are unable to access it through provincial health services.

⁴ Eligible First Nations and Inuit may be covered for this vaccine through Indigenous Services Canada's Non-Insured Health Benefits (NIHB) Program if they are unable to access it through provincial health services.
